

ROOFIX 20/10

Specifically developed to provide instant waterproofing for leaking roofs, an all-weather product that can be applied even in damp conditions. Roofix 20/10 can be used to repair specific areas that are leaking or totally waterproof an entire roof.

This product is multi-purpose and can be utilised on a wide variety of problem areas.

A single pack elastomeric acrylic based (non bitumastic) compound, with built in Draylon Fibre re-inforcement, providing excellent flexibility and durability. Provides exceptional adhesion to virtually any roofing material. Roofix 20/10 does not require special primers, and can provide long term protection in excess of 10 years.

DRAYLON FIBRE RE-INFORCED

Areas of use: asphalt, slates, asbestos, cement, metal, old roofing felt, lead flashing, gutters, bay window and porch areas.

Coverage: Theoretical spreading rate 1 square metre per litre

Standard Colours: Available in Black, Grey and White
